ABOUT

MCA graduate skilled in Python, Django, and REST APIs, with hands-on experience building database-driven web applications. Seeking a Trainee Python Developer role to grow through real backend work.

PROFESSIONAL TRAINING

Infolabz IT Services Pvt. Ltd. **Jun 2023 - April 2024**

- Worked extensively with Django to develop full-stack web applications, including responsive web pages using HTML, CSS, JavaScript, and Bootstrap, with a focus on cross-browser compatibility.
- Developed database-driven backend systems using Python, Django, and SQLite, and worked with external APIs for data handling and integration while debugging application issues.

EDUCATION

Gujarat Technological University **2024 - 2026**

- Master of Computer Applications - 7.80 CGPA

Gujarat University **2021 - 2024**

- Bachelor of Computer Applications - 7.03 CGPA

SKILLS

- Python
- Django
- SQLite
- MySQL
- Django ORM
- Authentication & Authorization
- REST APIs
- Django REST Framework
- HTTP & JSON
- Git & GitHub
- API Integration
- Debugging
- OOP
- Data Structures
- Problem Solving
- Quick Learner

PROJECTS

E-commerce Platform

Live Demo | GitHub Repository

- Developed a full-stack e-commerce platform using Django with Admin, User, and Vendor modules. Implemented role-based authentication and authorization, enabling Admin, Vendor, and User-specific access while supporting product catalog management, shopping cart, and checkout through a responsive user interface.
- **Skills:** Python, Django, SQLite, HTML, CSS, JavaScript, Bootstrap

AI Resume Analyzer

GitHub Repository

- Developed an AI-powered resume analyzer using Django REST Framework and Streamlit to evaluate resumes against job descriptions. Implemented ATS scoring, keyword matching, semantic similarity, missing-skill detection, and AI-based resume analysis and improvement using Gemini.
- **Skills**: Python, Django, Django REST Framework, Streamlit, Gemini API, Sentence Transformers, NLP, PDF/DOCX Processing

API-Based News Website

GitHub Repository

- Developed a Django-based news website that integrates an external API to fetch and display real-time news. Implemented features such as news categorization, search functionality, and a responsive user interface.
- **Skills:** Python, Django, External API Integration, SQLite, HTML, CSS, JavaScript
